Bachelor of Science in Psychology

120 Hours Required

Program Description

The vision of the Department of Psychology is to produce graduates who make significant contributions to the science and practice of psychology and related fields locally, nationally, and globally. The Psychology Program of study is designed to contribute to a student's general liberal education, to enhance the student's understanding of human behavior, to provide academic and practical preparation for entry level positions in mental health and related fields, and to provide a foundation for entry into graduate or professional schools in a variety of areas of specialization. The mission of the Department of Psychology is to provide students with a foundation for the scientific understanding of behavior and mental processes within the structure of academic excellence and research through experiential, collaborative and discovery-based learning in a nurturing environment. As such, the Department provides a pathway for graduates to pursue advanced degrees or employment in numerous related fields.
